

## Potential Energy Initiatives

### Organizational

	<i>EFCL Resources</i>	<i>City Resources</i>	<i>Other Resources</i>
Get a hall energy audit	- <a href="#">Energy Transition Officer to assist with every stage</a> - <a href="#">Green Leagues offers heavily discounted audits</a> - <a href="#">Recommended Contractor List</a>		
Think about generating solar power	- <a href="#">Energy Transition Officer to assist with every stage</a>		<a href="#">Solar Consumer's Guide</a>
Buy energy efficient lights and appliances when old ones need to be replaced (can use light installation as a community event)	- <a href="#">Energy Transition Officer to assist with every stage</a>		<a href="#">Energy Star</a>
Install lighting and heating controls (ex. bathroom occupancy sensors, smart thermostats)	- <a href="#">Energy Transition Officer can assist</a>		
Install electric vehicle charging stations	- <a href="#">Energy Transition Officer can assist</a>		
Consider energy benchmarking or sub monitoring to better understand and showcase hall energy use			- <a href="#">Energy Star Portfolio Manager (Benchmarking Tool)</a>
Integrate local purchases in all events (local gift cards as prizes, local grocery shopping for food, etc.)			

### Programs

	<i>EFCL Resources</i>	<i>City Resources</i>	<i>Other Resources</i>
Promote biking/walking to meetings/events (may include extra bike racks, campaigning for bike lanes in the neighbourhood, a bike safety event, group biking days, etc.)		- <a href="#">Edmonton Bike Routes</a>	- <a href="#">Edmonton Bicycle Commuters Society community resources</a>
Work towards local membership benefits (community league discounts to local stores, local restaurants, local attractions)	- <a href="#">The EFCL Membership Director can assist</a>		

### Events

	<i>EFCL Resources</i>	<i>City Resources</i>	<i>Other Resources</i>
Solar fun day (event day focused on energy efficiency and solar, can also be powered by solar power)	- <a href="#">Energy Transition Officer available to present</a> - <a href="#">Green Leagues can provide information brochures and pamphlets</a> - <a href="#">Web Resources: potential vendors at your event, energy related kids' crafts</a>	- <a href="#">City personnel are available to present</a>	
Site tour and presentations (for those with solar array)	- <a href="#">Energy Transition Officer available to present</a> - <a href="#">provides information brochures and pamphlets</a>	- <a href="#">City personnel are available to present</a>	<a href="#">Eco-Solar Home Tour (June 2-3, 2018)</a>

Host workshops about residential energy saving opportunities	<a href="#">- Energy Transition Officer available to present</a>	<a href="#">- City personnel are available to present</a>	
An Earth Day lights out game night			<a href="#">- Earth Hour</a>
